# MARK SCHEME for the October/November 2010 question paper for the guidance of teachers

# 9706 ACCOUNTING

9706/23

Paper 2 (Structured Questions – Core), maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(c) Stock should be valued at the lower of cost and net realisable value. IAS states companies should either use the FIFO or AVCO method of stock valuation. Whichever method is used should be used consistently – Consistency concept. Prudence concept states that companies should choose the lowest value when valuing their assets.
