Paper 3 Structured Questions October/November 2019

**INSERT** 

3 hours

## **READ THESE INSTRUCTIONS FIRST**

This Insert contains all of the required information and questions. The questions are provided in the Insert for reference only.

Anything you write in this Insert will not be marked.

The businesses described in this Insert are entirely fictitious.

This document consists of 11 printed pages and 1 blank page.

## **Section A: Financial Accounting**

## **Question 1**

#### Source A1

T plc is a manufacturing business. It accounts for factory profit at a rate which has not changed for some years. The following summarised information is available from its statements of financial position at 31 December 2018 and 31 December 2017.

	2018 \$	2017 \$
Non-current assets (at net book value)		
Factory equipment	100 800	112 000
Office equipment	20400	23600
Delivery vehicles	21000	28 000
	<u>142 200</u>	<u>163600</u>
Current assets		
Inventory		
raw materials	21 000	11 000
work in progress	2600	2800
finished goods	12 500	10 000
provision for unrealised profit	<u>(2500)</u>	<u>(2000)</u>
	33 600	21800
Trade receivables	19 700	16 500
Cash and cash equivalents	<u>8 300</u>	<u>2800</u>
	<u>61 600</u>	<u>41 100</u>
Total assets	<u>203 800</u>	<u>204 700</u>
Ordinary share capital	150 000	150 000
Retained earnings	<u>29 200</u>	<u>36 300</u>
-	<u>179 200</u>	<u> 186 300</u>
Current liabilities		
Trade payables	24 600	<u> 18400</u>
Total equity and liabilities	<u>203 800</u>	<u>204 700</u>

The following additional information is also available for the year ended 31 December 2018.

- 1 The change in retained earnings comes from the profit for the year and a dividend paid of \$25 000.
- 2 There were no acquisitions or disposals of non-current assets.
- 3 Purchases of raw materials and production labour amounted to \$246,000 and \$195,500 respectively.
- 4 Distribution costs (excluding depreciation) amounted to \$51000 and administrative expenses (excluding depreciation) amounted to \$81000.
- 5 Factory overheads **included** \$26,000 for factory rent and \$31,100 for factory supervisory salaries.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

[8]

(a) Prepare the manufacturing account for the year ended 31 December 2018.

**(b)** Prepare the income statement for the year ended 31 December 2018.

[10]

## **Additional information**

The directors have been increasing the inventory of raw materials because of fears that the price of raw materials will increase considerably in the future.

- (c) Discuss the factors the directors should consider in deciding whether to increase the inventory of raw materials. [5]
- (d) Explain why prime cost varies when production levels vary.

[2]

## Source A2

Amit and Bonnie entered into a joint venture to sell street food from a market stall during the holiday season, sharing profits and losses equally. The following information is available.

- 1 Amit and Bonnie each paid \$850 into the joint venture bank account.
- 2 Amit paid the rent, \$600, on the market stall.
- 3 Bonnie owned some catering equipment which she transferred to the joint venture at an agreed valuation of \$1100.
- 4 Purchases of \$8080 and other running expenses of \$620 were paid from the joint venture bank account.
- Amit took \$700 of the sales proceeds for his own use, while Bonnie took \$3300. Remaining sales proceeds of \$6100 were paid directly into the joint venture bank account.
- At the end of the joint venture the catering equipment was sold at its agreed value of \$1100 and the proceeds were paid into the joint venture bank account.
- 7 The profit was then calculated and the joint venture bank account was closed.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Prepare the joint venture account.

[9]

**(b)** Prepare Bonnie's account in the books of the joint venture.

# [5]

### Additional information

Amit and Bonnie are considering entering into another joint venture in the following year. They are considering renting a larger stall at a rent of \$1500. They think they could sell double the amount of food whilst maintaining the same selling prices. They expect to receive discounts for bulk buying of purchases such that the gross margin would increase by 10%.

- (c) Calculate the increase in gross profit which is expected to arise if the proposed joint venture takes place. [5]
- (d) Advise Amit and Bonnie whether or not they should enter into the proposed joint venture.

  Justify your answer.

  [4]
- (e) Explain how a party to a joint venture, who has to pay money into its bank account at the close of the venture, is similar to a partner with a debit balance on the current account. [2]

#### Source A3

Alice and Bruno had been in partnership for some years when they decided to sell their business to D Limited on 31 December 2018.

The statements of financial position of the two businesses on that date were as follows.

	Alice and Bruno \$000	D Limited \$000
Non-current assets Land and buildings Equipment	80 20 100	320 77 397
Current assets Inventory Trade receivables Bank	25 15 <u>7</u> 47	68 41 76
Total assets	147	185 582
Equity Capital accounts Alice Bruno	75 30 105	
Current accounts Alice Bruno	24 <u>6</u> 30	
Ordinary share capital (\$1 shares) Retained earnings	00	300 153 453
Non-current liabilities Debentures		100
Current liabilities Trade payables Total equity and liabilities	<u>12</u> 147	

The following information is also available:

1 Return on capital employed (ROCE) before acquisition and before revaluation of assets was:

Alice and Bruno 8% D Limited 6%

2 The purchase consideration for the acquisition of the partnership was \$266 000. This consisted of the following:

\$56 000 in cash \$60 000 in 8% debentures repayable in 2026 100 000 ordinary shares of \$1 each in D Limited at a **premium**.

3 The partnership land and buildings were taken over at a valuation of \$195000. All other assets and liabilities **except** bank were taken over at book value.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

- (a) Prepare, in the books of D Limited, the journal entry needed to record the acquisition of the partnership on 31 December 2018. A narrative is **not** required. [9]
- **(b)** Calculate the gearing ratio of D Limited:
  - (i) before the acquisition [2]
  - (ii) after the acquisition. [2]
- (c) Calculate, to **two** decimal places, the ROCE of D Limited **after** the acquisition of the partnership. [5]
- (d) Advise the directors of D Limited whether or not they made a good decision in acquiring the partnership. Justify your answer, making reference to your answers to parts (b) and (c). [5]
- (e) State **two** advantages of being a shareholder in a limited company instead of being a partner in a partnership. [2]

## Source A4

An important feature of large limited companies, such as M plc, is stewardship.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Explain the term 'stewardship'.

[2]

**(b)** Explain the need for an audit of a limited company.

[4]

#### Additional information

M plc has been trading for many years.

The directors of M plc have agreed that the interim dividend will be based on the profit for six months ended 31 May 2018. A draft set of financial statements for the six months ended 31 May 2018 have been prepared and audited.

The following information is available for the six months ended 31 May 2018.

	\$
Revenue	320 000
Cost of goods sold	143 000
Share capital (ordinary shares of \$0.50 each)	400 000
Distribution costs	35 100
Administrative expenses	60 100
Cash and cash equivalents	45 200
Finance charges	16600

During the audit the following was discovered.

- Included within revenue was a sales invoice for \$2000 for goods sent to a customer on a sale or return basis. The mark-up on the goods was 33.33%. The customer had yet to decide whether or not to keep the goods.
- 2 All closing inventory had been valued at cost. However, it was discovered that goods with a cost price of \$4200 had been damaged and now had a market value of \$3500. The replacement value of the inventory was \$4400.
- (c) Prepare the revised income statement for the six months ended 31 May 2018. [6]

## **Additional information**

Due to previous poor shareholder returns the directors want to make the maximum return they can to the shareholders. They are considering two options.

Option 1: pay a dividend up to 75% of the profit for the six months.

Option 2: make a bonus issue to the shareholders of 1 ordinary share for every 10 shares currently held.

The current market value of an ordinary share is \$0.55.

- (d) (i) Calculate the dividend per share which would be paid to the shareholders under option 1. [3]
  - (ii) Discuss the implications for the business of **each** option that the directors should consider when deciding which option to choose. Support your answer with relevant calculations. [10]

## **Section B: Cost and Management Accounting**

## **Question 5**

## Source B1

Mohindra operates a standard costing system. The budgeted data for October was:

Total production and sales 4000 units

Per unit

Direct materials 3 kilos at \$6 per kilo
Direct labour 9 hours at \$10 per hour
Fixed overheads \$1 per direct labour hour

The actual results for October were:

Output 4500 units

Direct materials 14 000 kilos at \$5.75 per kilo 37 000 hours at \$10.50 per hour

Total fixed overheads \$40 000

All units produced were sold.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Calculate the following variances for October:

(i) material price [2]

(ii) material usage [2]

(iii) labour rate [2]

(iv) labour efficiency. [2]

**(b)** Analyse, using your answer from part **(a)**, the relationship between:

(i) the material price variance and material usage variance [4]

(ii) the labour rate variance and labour efficiency variance. [4]

### **Additional information**

The fixed overhead volume variance for October was \$4500 favourable.

(c) Explain to Mohindra how this variance can be further analysed to provide him with more information about the performance of his business. [4]

## **Additional information**

Mohindra intends to stop using the standard costing system.

(d) Advise Mohindra whether or not he should take this course of action. Justify your answer. [5]

## Source B2

Ronaldo is considering introducing a new product which will require the purchase of a new machine. There are two machines available, Machine A and Machine B, but only one may be acquired. Both machines will be scrapped after five years with no residual value.

The following information is available for Machine A.

	\$
Cost	225 000
Revenue generated in year 1	80000
Direct costs in year 1	20 000

Revenues are expected to increase by 10% **every** year to year 4 and then decrease by 25% in year 5.

Direct costs are expected to increase by 5% in year 3 and by a **further** 6% in year 5.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Calculate the accounting rate of return (ARR) for Machine A to **two** decimal places. [10]

#### Additional information

Ronaldo has a cost of capital of 10%. Discount factors are as follows:

Year	1	0.909
	2	0.826
	3	0.751
	4	0.683
	5	0.621

(b) Calculate the net present value (NPV) of Machine A.

[4]

## **Additional information**

The payback period for Machine A is 3 years and 3 months.

(c) State **three** advantages and **three** disadvantages of using the payback method of investment appraisal. [6]

#### Additional information

The following data are available for Machine B.

Payback period 2 years and 10 months ARR 23.58%

ARR 23.58% NPV \$24.858

(d) Advise Ronaldo which machine he should purchase. Justify your answer.
