

UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS
General Certificate of Education
Advanced Subsidiary Level and Advanced Level

BIOLOGY

9700/32

Paper 3 Advanced Practical Skills

May/June 2007

CONFIDENTIAL INSTRUCTIONS

Great care should be taken to ensure that any confidential information given does not reach the candidates either directly or indirectly.

If you have any problems or queries regarding these Instructions, please contact CIE
by e-mail: International@ucles.org.uk,
by phone: +44 1223 553554,
by fax: +44 1223 553558,
stating the Centre number, the nature of the query and the syllabus number quoted above.

This document consists of **6** printed pages and **2** blank pages.

Instructions for preparing apparatus

These instructions give details of the apparatus required by each candidate for each experiment in this paper. A summary of the questions that will be presented to the candidates is included, where appropriate, to allow the Biology teacher to test the apparatus appropriately. **No access to the question paper is permitted in advance of the examination.**

If a candidate breaks any of the apparatus, or loses any of the material supplied, the matter should be rectified and a note made in the Supervisor's Report.

Candidates must be provided with a microscope with:

- Low-power objective lens, e.g. $\times 10$ (equal to 16 mm or $\frac{2}{3}$ ")
- High-power objective lens, e.g. $\times 40$ (equal to 4 mm or $\frac{1}{6}$ ")
- Eyepiece graticule fitted within the eyepiece and visible in focus at the same time as the specimen.

Each candidate must have sole, uninterrupted, use of the microscope for at least 55 minutes.

Supervisors are advised to remind candidates that **all** substances in the examination should be treated with caution. Pipette fillers and safety goggles should be used where necessary.

In accordance with the COSHH (Control of Substances Hazardous to Health) Regulations, operative in the UK, a hazard appraisal of the examination has been carried out.

The following codes are used where relevant.

C = corrosive substance

F = highly flammable substance

H = harmful or irritating substance

O = oxidising substance

T = toxic substance

N = harmful to environment

Centres are reminded that they are **not** permitted to open the question paper envelopes before the examination. Centres are also referred to the Handbook for Centres, and in particular Section 3.1.2 (c) (i), Security of Question Papers and Examination Materials, as well as 3.3.11.1, Practical Examinations in Science Subjects.

If there are any difficulties with any aspect of setting up this practical examination that the Centre is not able to sort out, it is essential for Centres to contact the Product Manager, Dr Rick Nelms, as soon as possible by e-mail to international@cie.org.uk, by fax to +44 1223 553558 or by phone to +44 1223 553554.

Confidential Instructions

Each candidate must be supplied with the following apparatus and materials.

Question 1

Candidates will be expected to carry out a simple test for reducing sugar using Benedict's solution.

Each candidate will require:

- (i) 5 cm³ of a 0.2% glucose solution, coloured yellow with 1 drop of food dye, labelled **F1**. This should be prepared by dissolving 0.2 g of glucose in 80 cm³ of distilled water, adding 1 drop of yellow food colouring, then making up to 100 cm³. This can be made up the day before the examination.
- (ii) 50 cm³ of 0.8% glucose solution, labelled **F2**. This should be prepared by dissolving 0.8 g of glucose in 80 cm³ of distilled water and then making up to 100 cm³. This can be made up the day before the examination.
- (iii) 20 cm³ of Benedict's solution, labelled **Benedict's solution**. The usual formulation used in the centre for reducing sugar testing will be suitable. This can be made up well in advance of the examination.
- (iv) A beaker containing 50 cm³ of distilled water, labelled **distilled water**.
- (v) 5 cm³ syringe and means of washing it.
- (vi) Test-tube rack with six test-tubes and means of washing them.
- (vii) Water-bath or means of heating water e.g. beaker, Bunsen or other burner, tripod and gauze.
- (viii) Glass marker pen or wax pencil or small labels and pencil.
- (ix) Measuring cylinder or means of measuring volumes of solutions.
- (x) Transparent ruler with mm scale.
- (xi) Sight of a clock with a second hand or stop-clock or stop-watch.

Question 2

Each candidate will require:

- (i) A microscope slide, labelled **R1** (from Cambridge).
- (ii) A stage micrometer scale supplied by Cambridge, attached to a microscope slide with self-adhesive transparent tape as described in the instructions supplied with the scale.
- (iii) A microscope with:
 - Low-power objective lens, e.g. $\times 10$ (equal to 16 mm or $\frac{2}{3}$ ")
 - High-power objective lens, e.g. $\times 40$ (equal to 4 mm or $\frac{1}{6}$ ")
 - Eyepiece graticule (from Cambridge) fitted within the eyepiece and visible in focus at the same time as the specimen.

MATERIALS TO BE SUPPLIED BY CIE

- (i) Question papers.
- (ii) Slide **R1** (question 2, shared between two candidates).
- (iii) Two graticule scales and instructions for their use, one as an eyepiece graticule, the other as a stage micrometer.

RETURN OF EXAMINATION MATERIALS TO CAMBRIDGE

Immediately after the examination, microscope slides **must** be returned to CIE in the containers in which they were received, using the self-adhesive label for the parcel. They must **not** be included in the parcel of scripts. It may be possible to buy the slides, in which case an order form will be enclosed with the slides, and should be returned to CIE using the self-adhesive label for the letter. Slides and containers not returned in good condition will be charged at a rate of £4 per item to which may be added administrative costs.

REPORT FORM

The teacher responsible for the examination is asked to fill in the Report Form attached to these instructions. For Centres where more than one script envelope is used, there must be a copy of the complete Report Form in each script packet.

These report forms are vital in order to allow the examiners to assess all candidates as fairly as possible. The Report Form should always be completed by every Centre. Please include information relevant to all candidates, and also to individual candidates.

A copy of the seating plan for the examination room must also be enclosed in each script envelope.

BLANK PAGE

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (UCLES) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

University of Cambridge International Examinations is part of the University of Cambridge Local Examinations Syndicate (UCLES), which is itself a department of the University of Cambridge.

- 3. Enclose a plan of work benches with the scripts, giving details of the candidate numbers of the places occupied by the candidates for each session. The space below can be used for this, or it may be on separate paper.

Declaration (to be signed by the Principal)

The preparation of this practical examination has been carried out so as to maintain fully the security of the examination.

Signed

Name (in block capitals)

Centre number

Centre name

If scripts are required by CIE to be despatched in more than one envelope, it is essential that a copy of the relevant Supervisor's report and the appropriate seating plan(s) are sent inside **each envelope**.
