UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the May/June 2012 question paper for the guidance of teachers

9700 BIOLOGY

9700/34

Paper 32 (Advanced Practical Skills 2), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Mark scheme abbreviations:

; separates marking points

I alternative answers for the same point

R reject

A accept (for answers correctly cued by the question, or by extra guidance)

AW alternative wording (where responses vary more than usual)

underline actual word given must be used by candidate (grammatical variants excepted)

max indicates the maximum number of marks that can be given

ora or reverse argument

mp marking point (with relevant number)

ecf error carried forward

I ignore

AVP Alternative valid point (examples given as guidance)

| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| Que | stion 1 | Expecte | ed Answers |
|-----------------|---------|--|--|
| (a) | (i) | | [3] |
| MMO decisions 3 | mp 1 | 100 | (simple dilution) next four concentrations (five concentrations in total) with four even intervals; e.g. 100, 80, 60, 40, 20 e.g. 100, 90, 80, 70, 60 e.g. 100, 75, 50, 25, 0 (serial dilution) e.g. 100,50, 25,12.5, 6.25 e.g. 100,10,1,0.1 and 0.01 Do not give mark if rounds up or down e.g.12 or 13 or 6.3 if no concentrations |
| MM | mp 2 | for <u>first four</u> concentrations shows the use of 100% or plant extract / correctly • plant extract / P / 100 into <u>all</u> simple dilution • plant extract / P / 100 <u>only for first one</u> in a serial dilution | AND (P) cm ³ ; |
| | | | Do not give mark if if no concentrations |
| | mp 3 | ume <u>10</u> ; | |

| Page 4 | Mark Scheme: Teachers' version | Syllabus | Paper |
|--------|--------------------------------|----------|-------|
| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| (a) (| (a) (ii) [6] | | | | |
|----------------|--------------|--|---|--|--|
| | mp 1 | table with all cells drawn | AND heading (top or left of recorded data column) percentage concentration (of) plant extract or P; | | |
| ding 2 | | | Do not give mark if % in cells of headed column other units mol dm⁻³ no units | | |
| PDO recording | mp 2 | (heading – column or row includir time (/)s or sec(onds); | ng mean) | | |
| PDC | | | Do not give mark if units in cells of this column / row min(utes) additional method information either headings for columns / rows variables or in cells e.g. volumes and concentration in same cells | | |
| 2 | mp 3 | (mark first column / row of recorde for at least four concentrations records whole seconds numbers | ed time taken) less than 180 or '> or more than 180'; | | |
| MMO collection | | Must have • whole numbers • numbers 180 or less | | | |
| Ν | mp 4 | (mark first column / row of recorded time taken) (records correct pattern) highest concentration recorded is shorter time than lowest concentration; | | | |
| n 2 | mp 5 | at least two readings per concentration or six or more concentrations; | | | |
| MMO decision 2 | mp 6 | mean / average recorded or rate recorded for two or more concentrations; | | | |

| Page 5 | Mark Scheme: Teachers' version | Syllabus | Paper |
|--------|--------------------------------|----------|-------|
| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| (a) (i | (a) (iii) Mark as incorrect idea that any errors which affect all tubes equally. | | | | |
|--------------------------|---|---|---|--|--|
| | | cause of error | WITH idea of error | | |
| | mp 1 | (independent variable – different concentrations of plant extract, catalase) plant extract (on paper) | not even or bubbles / foam on side; (do not give if gas bubbles/oxygen) | | |
| etation MAX 3 | mp 2 | volume or amount or concentrations of extract time of dipping or soaking extract left on paper thickness of paper | idea of different (different pieces of paper) not the same not removed varies; | | |
| ACE interpretation MAX 3 | mp 3 | (dependent variable – different times for paper to rise in hydrogen peroxide solution) timing | paper sinking to bottom variable time for paper to reach bottom paper rises flat or paper on edge or foam on paper; | | |
| | mp 4 | hydrogen peroxide | not the same (concentration) for each square of paper or lost has P (from previous concentration) idea of used up or not new / fresh; | | |
| | mp 5 | paper | idea of sticking to sides; | | |
| | mp 6 | temperature of hydrogen peroxide | rises; | | |

| Page 6 | Mark Scheme: Teachers' version | Syllabus | Paper |
|--------|--------------------------------|----------|-------|
| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| (a) (i | (a) (iv) | | | [max 3] | | | |
|--|----------|---|---------|---|--|--|--|
| | mp 1 | (concentration of extract) idea of using more concentrations of | or seri | al dilution | | | |
| | | or | | | | | |
| က | | repeat; | | | | | |
| MAX | | Ignore mean or average | | | | | |
| ACE improvements MAX | mp 2 | (standardised variables) use same piece / source of paper | | | | | |
| nprov | | same time for soaking or dipping in | to plar | nt extract; | | | |
| CE in | mp 3 | рН | | use buffers to keep constant; | | | |
| A | mp 4 | hydrogen peroxide | | use fresh hydrogen peroxide / renew for each square (so 'not used up'); | | | |
| | mp 5 | container | | use deeper / wider container so squares do not touch sides | | | |
| | | or squares | | smaller or as circles; | | | |
| (b) (i | i) | T | | [4] | | | |
| | mp 1 | <i>x</i> -axis <u>percentage concentration</u> <u>hydrogen</u> <u>peroxide or H₂O₂</u> | | AND <i>y</i> -axis time (/) s or sec(onds) to collect oxygen or \underline{O}_2 ; | | | |
| | mp 2 | scale as <i>x</i> -axis 5 to 2 cm labelled each 2cm | | AND y-axis 10 to 2 cm labelled each 2cm; | | | |
| PDO layout 4 | mp 3 | correct plotting of • <u>five</u> points only • as small cross (does not go outside square on grid) or dot (in circle) or cross in circle to <u>within</u> half a square; | | square on grid) or dot (in circle) or cross in | | | |
| Δ. | mp 4 | | | (quality) oth line less than line thickness on grid; | | | |
| Do not give mark if ● any extrapolation | | | | | | | |

| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| Question 2 | | Expected Answers | | | | |
|------------------|------|--|--|--|--|--|
| (a) (i) | | | | [5] | | |
| PDO layout 1 | mp 1 | not drawn over the print of question AND no shading | AND largest blood vessel larger than 50 mm | clear, sharp, unbroken lines for all outermost enclosed areas; Do not give mark if less than two outermost enclosed areas or if any outermost line has any ruled or compass lines any line more than1 mm feathery or broken or dashed or gap any 'tail' or overlap | | |
| n 3 | mp 2 | no cells | AND drawn at least tw | awn at least two complete vessels; | | |
| MMO collection 3 | mp 3 | drawn differe must be <u>only</u> | nt vessels two complete vessels | AND different shapes; | | |
| MMO | mp 4 | | complete vessel least two layers ee lines) | AND in this vessel inner lining crinkled or corrugated all round; | | |
| ision 1 | mp 5 | correct label muscle or tunica media with label line to layer touching endothelium (inner line) of complete vessel with thickest wall; Must have minimum of three enclosed areas, line must touch middle line or be between the middle and inner line | | | | |
| MMO decision 1 | | | vessels with muscle lia then both must be | Do not give mark if | | |

| Page 9 | Page 9 Mark Scheme: Teachers' version | | Paper |
|--------|---------------------------------------|------|-------|
| | GCE AS/A LEVEL – May/June 2012 | 9700 | 34 |

| (a) (i | (a) (ii) [5] | | | | | | |
|-------------------|--------------|--|--|---|--|--|--|
| PDO layout 1 | mp 1 | not drawn over the print of question AND no shading | AND larger than 50 mm across widest point of inner enclosed area on any alveolus | clear, sharp, unbroken lines for all inner enclosed areas; Do not give mark if • less than two hand drawn inner enclosed areas any of the inner enclosed areas has • any ruled lines • any line more than 1mm • any feathery line or broken or dashed or gap in line • any 'tails' or overlaps or gaps | | | |
| VIMO collection 2 | mp 2 | only two inner enclosed areas Ignore double lines | AND with shared adjacent wall | AND with outer line partly drawn to show each end of the shared wall; | | | |
| ¥ | mp 3 | at least 2 complete alveoli of different shapes; | | | | | |
| | mp 4 | drawn all shared walls with all other alveoli (all round both alveoli) | | AND (walls with) at least three nuclei drawn enclosed in the alveolar wall; Do not give mark if draw cells | | | |
| cision 2 | mp 5 | | el <u>gas exchange men</u> s the line or between | mbrane with label line(s) which two lines; | | | |
| MMO decision 2 | | | | any label is biologically incorrect e.g. from incorrect organ or plant e.g. epidermis or non-observable structures e.g. cilia label within drawn area | | | |
