#### **BUSINESS**

Paper 3 Case Study MARK SCHEME Maximum Mark: 100 9609/32 February/March 2022

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the February/March 2022 series for most Cambridge IGCSE<sup>™</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

## **Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always whole marks (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

# Social Science-Specific Marking Principles (for point-based marking)

1	Co •	<b>mponents using point-based marking:</b> Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.
	Fro	om this it follows that we:
	а	DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
	b	DO credit alternative answers/examples which are not written in the mark scheme if they are correct
	С	DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list-type answers. For example, questions that require <i>n</i> reasons (e.g. State two reasons).
	d	DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
	е	DO NOT credit answers which are obviously self-contradicting or trying to cover all possibilities
	f	DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
	g	DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)
2	Pre • •	esentation of mark scheme: Slashes (/) or the word 'or' separate alternative ways of making the same point. Semi colons (;) bullet points (•) or figures in brackets (1) separate different points. Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).
3	Ca	Iculation questions:
	•	The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
	•	If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
	•	Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
	•	Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

## 4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

# General Marking Guidance for 9609 Paper 3

- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.
- Errors that are carried forward (e.g. when an incorrect numerical answer to one part of a question is used as the starting point for a calculation in the next part of the question) should not be compounded use the 'own figure rule'.
- Poor spelling, handwriting or grammar should not be penalised as long as the answer makes sense.
- The main annotations to be used are K (Knowledge), APP (Application), AN (Analysis), EVAL (Evaluation). For each of these four annotations, the number of marks awarded for that assessment objective must match the number of times that annotation is on the answer.
- Only award EVAL if the candidate has also demonstrated APP.
- Other annotations that can be used are: Tick, Cross, BOD (Benefit Of Doubt), TV (Too Vague), REP (Repetition), NAQ (Not Answered Question), OFR (Own Figure Rule), SEEN, On Page Comment.
- Blank pages on a script must be annotated as SEEN.
- A blank space, dash, question mark or a response that bears no relation to the question constitutes a 'no response'.
- In Section B, candidates answer either Question 6 or Question 7. The Section B question that the candidate does not answer must be entered as 'no response'.
- Blank pages, or pages that contain crossed out material, must be annotated using 'SEEN'.

This mark scheme includes a summary of appropriate content for answering each question. It should be emphasised, however, that this material is for illustrative purposes and is not intended to provide a definitive guide to acceptable answers. It is quite possible that among the scripts there will be some candidate answers that are not covered directly by the content of this mark scheme. In such cases, professional judgement should be exercised in assessing the merits of the answer and the senior examiners should be consulted if further guidance is required.

Application marks are not awarded for repeating material from the case study. Application is demonstrated by answering in the context of the case or by using the information in the case to help answer the question.

Question			Answer		Marks

Question	Answer	Marks
3	<ul> <li>Analysis</li> <li>Linking specific policies to impact on UBH <ul> <li>Postponement of business and property taxes will reduce cash outflows. Gives UBH a breathing space to allow survival.</li> <li>Expansionary fiscal policy will boost spending in the economy and provide better conditions for business start-ups whilst also protecting recently formed businesses. This will result in higher demand from businesses for co-working space and therefore boost revenue and potentially profit</li> <li>Cut in borrowing costs could reduce costs of UBH servicing its debt and this will increase profit for the year.</li> <li>Lower interest rates will encourage greater consumer spending and business investment. His will benefit UBH sales.</li> <li>Lower interest rates will reduce the cost of expansion making opening the three new Beehives in 2022 more viable.</li> </ul> </li> <li>Evaluation <ul> <li>Most important policy. Deferral of property and business taxes would have immediate impact on UBH cash outflows.</li> <li>Time lags of policies – infrastructure spending takes time to have full impact on aggregate demand.</li> <li>Deferral of business tax is postponing payment of the tax but the debt still exists which could still cause business failure</li> <li>Policies may only be temporary so UBH's survival depends on how well it takes advantage of the opportunities presented e.g. UBH will still need to control costs to survive.</li> </ul> </li> </ul>	

#### 9609/32

#### Cambridge International AS & A Level – Mark Scheme February/March 2022 PUBLISHED

Question	Answer	Marks
4(a)	Refer to Table 3. Calculate for 2021 the:	
4(a)(i)	gearing ratio	4
	$\frac{\text{non-current liabilities}}{\text{shareholders' equity + NCL}} \times 100$	
	OR	
	$\frac{\text{debt}}{\text{debt} + \text{equity}} \times 100$	
	OR	
	$\frac{\text{long-term liabilities}}{\text{capital employed}} \times 100  (1)$	
	Shareholders' equity + NCL = 2 + 3.5 + 12 = (\$)17.5(m) (1)	
	Gearing = $\frac{12}{17.5} \times 100$ (3)	
	Gearing = 68.57% OR 69% (4)	
	OR	
	$\frac{\text{debt}}{\text{equity}} \times 100 \text{ (1 mark if no relevant calculation)}$	
	Gearing = $\frac{12}{5,5} \times 100$ (3)	
	Gearing = 218.18% OR 218% (4)	
	Other answers with errors: Relevant working MUST be shown. Allow appropriate rounding.	
	$\frac{12}{17.5} = 0.6857$ (3)	
	$\frac{12}{14}$ × 100 = 85.7% (3) 0.857 (2)	

#### 9609/32

Question	Answer	Marks
4(a)(i)	$\frac{12}{15.5}$ × 100 = 77.4% (3) 0.774 (2)	
	$\frac{12}{2} \times 100 = 600\%$ (3) 6 (2)	
	$\frac{12}{3.5}$ × 100 = 342.9% (3) 3.429 (2)	
	$2020 = \frac{9}{13.5} \times 100 = 66.7\%$ (3) OFR applies	
4(a)(ii)	current ratio	2
	$CR = \frac{\text{current assets}}{\text{current liabilities}} (1 \text{ if no relevant calculation})$	
	Current assets = 0.7+ 1.1 = (\$)1.8m (1)	
	$CR = \frac{1.8}{3} = 0.6 \text{ or } 0.6:1 (2)$	
	Other answers	
	$\frac{0.7}{3} = 0.23(1)$	
	$\frac{1.1}{3} = 0.37(1)$	
	0.6m (1)	
	2020 figure $\frac{0.8}{4.5} = 0.18 (1)$	
4(a)(iii)	dividend cover	2
	dividend cover = $\frac{\text{profit for the year}}{\text{total dividend}}$ (1 mark if no relevant calculation)	
	$=\frac{1.5}{0.5}$ (1)	
	= 3 times (2)	

Question	Answer
4(b)	You may refer to your answer to 4(a) and other information. Recommend whether UBH should change into a public limited company (plc). Justify your recommendation.
	LevelKnowledge 2 marksApplication 2 marksAnalysis 4 marksEvaluation 4 marks
	22 marks Two relevant points made2 marks Two points applied3-4 marks Good use of theory and/or reasoned argument3-4 marks Good judgement shown e.g. well supported conclusion
	11 mark One relevant point made1 mark One point applied1-2 marks Some use of theory and/or reasoned argument1-2 marks Some judgement shown
	<ul> <li>exchange</li> <li>Factors in the decision <ul> <li>Raising finance from shareholders as a plc</li> <li>Greater divorce between ownership and control of business as a plc.</li> <li>Dilution of control as plc.</li> <li>Risk of takeover increased as plc</li> <li>Plc status and link to long term growth of business</li> <li>Share capital is a permanent form of finance</li> <li>Reference to financial information and ratios e.g. gearing</li> <li>Pressure from shareholders to pay dividends.</li> <li>Cost of going public – legal, banking and issuing prospectus.</li> <li>Alternative sources of finance available.</li> <li>Gearing of UBH</li> <li>Greater scrutiny (financial publication).</li> </ul> </li> </ul>
	<ul> <li>Application</li> <li>Current gearing is high (above 50%). Link to expansion plans.</li> <li>Further borrowing for expansion and predicted increase in interest rates</li> <li>Application of changes to financial performance e.g. improving profitability and liquidity.</li> <li>Dividends were paid in 2020 despite making a loss.</li> <li>There are only three shareholders currently</li> <li>Profit and liquidity are weak</li> <li>Business is relatively new – only founded in 2018.</li> </ul>

Question	Answer	Marks
4(b)	<ul> <li>Analysis</li> <li>Gearing high so expansion funded by borrowing would potentially be difficult as banks may consider the business too risky.</li> <li>Finance can be raised for expansion and won't have to be repaid. If profits are low, then directors can choose not to pay a dividend to shareholders aiding the liquidity of UBH</li> <li>Risk of takeover increased if plc thus Amit could lose control of the business</li> <li>As a plc increased tension between shareholders wanting dividends and short-term profit versus the long-term success of UBH that Amit may be more concerned about</li> <li>Amit ambitious for UBH and plc conversion could fund his plans for expansion.</li> <li>Borrowing for expansion can result in greater reward for Amit and other shareholders</li> <li>Contrast going public with alternative means of raising finance such as debt finance. Debt finance includes payment of interest which will reduce profits available from which to pay dividends.</li> </ul>	
	<ul> <li>Evaluation</li> <li>Short/long-term impact on shareholders and the business</li> <li>Elements that the evaluation/judgement might depend on: <ul> <li>Attitude of Amit and the other two shareholders towards maintaining control of UBH</li> <li>Cost of the flotation</li> <li>Ability to finance further expansion from internal sources and or debt finance</li> <li>Selling price of the shares and likely demand for them</li> <li>Going public may not raise sufficient funds if there is limited demand for the shares.</li> <li>Whether payment of dividends will be made in future as they are not guaranteed. UBH may wish to retain more profit for expansion options</li> <li>Will there be sufficient interest in purchasing shares and at what price given UBH's financials?</li> </ul> </li> </ul>	
	Which is most important factor to shareholders?	

Question			Answer			Marks

3				7–10 marks Good judgement shown through with well supported conclusion/ recommendation, focused on the business in the case			
2	3 marks Good understanding shown	3 marks Good application to the case	3–4 marks Good use of reasoned argument or use of theory to explain points made	4–6 marks Some judgement shown in the n body of the answer <b>and</b> an atter support conclusion/ recommend focused on the business in the c <b>OR</b> effective and well supported conclusion/ recommendation, fo on the business in the case	npt to ation, case		
1	1–2 marks Some understanding shown	1–2 marks Some application to the case	1–2 marks Limited use of reasoned argument or use of theory to support points made	1–3 marks Limited attempt to show judgem either within the answer <b>OR</b> a weakly supported conclusion/ recommendation with some focu the business in the case			
0			No creditable c	content			

Question	Answer	Marks
6	Evaluate the usefulness to UBH of Porter's Five Forces analysis as a framework for developing its business strategy.	20
	If no reference to, or knowledge of, Porter's Five Forces is demonstrated then limit to K2 APP2 for understanding of other SA techniques. Max 4 marks.	
	Knowledge	
	<ul> <li>Explanation of Porter's Five Forces analysis – analyses competitive rivalry in a market</li> </ul>	
	<ul> <li>Explanation of other strategic analysis techniques – SWOT, PEST, Boston Matrix, core competencies.</li> </ul>	
	Place of strategic analysis techniques in strategic management	
	Application	
	Porter's Five Forces applied to UBH	
	<ul> <li>Limited real estate available gives landlords power in the market over UBH</li> </ul>	
	<ul> <li>Multinational clients have substantial financial power. This makes it difficult for UBH as a supplier to control price.</li> </ul>	
	<ul> <li>High capital costs reduce entry into the industry</li> </ul>	
	<ul> <li>Use of other strategic analysis techniques such as SWOT</li> </ul>	
	<ul> <li>Strengths e.g. brand reputation of UBH</li> <li>Weaknesses e.g. bish proving above 50%</li> </ul>	
	<ul> <li>Weaknesses e.g. high gearing above 50%</li> <li>Opportunities e.g. market growth in country W</li> </ul>	
	<ul> <li>Threats e.g. change in fiscal policy</li> </ul>	
	Analysis	
	Analysis is about the use of the techniques to shape strategy	
	Analysis of how techniques might guide strategic decisions	
	<ul> <li>UBH lack power in negotiating with corporate (MNCs) clients which reduces their ability to set price and that makes option 2 less desirable</li> </ul>	
	<ul> <li>Limited land available for expansion may mean that UBH faces</li> </ul>	
	<ul> <li>higher leasing costs for the expansion</li> <li>Threat of substitutes is quite high with digital technology making</li> </ul>	
	working from home more feasible and therefore the need for co-	
	working space less attractive	
	<ul> <li>UBH can differentiate its products making the threat of new entrants less of a concern</li> </ul>	
	<ul> <li>Competitive rivalry is high for option 2 due to threat of substitutes and power of landlords and corporate clients thus making this strategy less attractive.</li> </ul>	
	<ul> <li>Analysis of how other SA techniques can shape strategy</li> </ul>	
	<ul> <li>Focus on strengths and core competencies in choosing strategy will</li> </ul>	
	reduce risk to the business	
	<ul> <li>Identification of weaknesses that need to be addressed when making</li> </ul>	
	<ul> <li>decisions or alternative sought e.g. financing</li> <li>Anticipating changes to the external environment will enable UBH to</li> </ul>	
	take decisions to reduce risk and take advantage of opportunities	

Question	Answer	Marks
6	<ul> <li>Evaluation Clear conclusion as to the importance of Porter's Five Forces and strategic analysis including: <ul> <li>Critical comments on the techniques such as subjectivity</li> <li>Importance of understanding where the business is now in order to generate ideas and/or support for expansion <li>Comments that Porter on its own is not enough to develop strategy</li> <li>Subjective interpretation of the models – one manager's opinion of SWOT may be very different to another's</li> <li>UBH operate in a dynamic environment so analysis may quickly become outdated </li> <li>Need to understand the external environment – requiring a detailed PEST analysis</li> <li>Ranking the usefulness of the techniques in relation to expansion plans</li> <li>An assessment of the importance of timing and a timescale in carrying out analysis.</li> </li></ul></li></ul>	

Question		Answer		Marks
7			that would be most useful to ption 1 and strategic option 2.	20
		Option 1: Expansion abroad	Option 2: Target corporate clients	
	Driving forces	Rapid economic growth	Multinational investment in country W	
	Restraining forces	<ul> <li>Political instability</li> </ul>	High cost     Brand development required	
	Capital cost	\$6m	\$10m	
	Accounting Rate of	10%	15%	
	Return			
	Decision tree: Net return	\$2m	\$6m	
	Probability of success	60%	70%	
	<ul> <li>process of ide</li> <li>Strategic chorreverse.</li> <li>Strategic chorreverse.</li> <li>Strategic chorreverse.</li> <li>Understandirreverse.</li> <li>Understandirreverse.</li> <li>Investmereverse.</li> <li>Decision outcome data</li> <li>Force fierdecision</li> <li>Ansoff's</li> </ul>	entifying and deciding betw ice decisions are usually le ice techniques such as Ar s and investment appraisan of different choice techn ent appraisal: payback and d and the average profitat trees – inclusion of proba s from investments and m Id analysis – considers dri	ong term and difficult to easily soff Matrix, Decision trees, Force l iques: ARR. How quickly investment is	
	such as SWC	DT, PEST, Boston matrix, I	ues when preparing for choice Porter's Five Forces, Core	

Question	Answer	Marks
7	<ul> <li>Application <ul> <li>Use of the techniques/factors for two options – Table 4 examples</li> <li>Ansoff's matrix – Option 1 – market development as existing product being sold in new market</li> <li>Option 2 – how to categorise? Product needs to be adapted as customers are different. Is it a new market and new product?</li> <li>Option 2 has higher probability of success. Less risk.</li> <li>Option 2 has higher net return and ARR – link to shareholder returns</li> <li>Option 2 capital cost is \$4m greater – link to gearing</li> <li>Likely increase in interest rates from 2% to 4% in 2023</li> </ul> </li> </ul>	
	<ul> <li>Techniques encourage directors to consider the possible quantitative outcomes of each strategy. This will help decide which is the best and therefore reduce risk.</li> <li>How techniques may be used and the advantages and disadvantages. Force field analysis encourages managers to consider different aspects of a decision. By identifying restraining forces action can be taken to mitigate the negative effects of</li> <li>Better decision making by considering the quantitative aspects of the choices         <ul> <li>Use of probabilities in decision trees therefore reducing risk for UBH of option choice</li> <li>Option 2 has a higher probability of success and a higher EMV suggesting this is the more desirable option</li> <li>ARR enables UBH to choose option with highest return (option 2) which may be important to shareholders</li> </ul> </li> <li>In calculating the returns account should be taken of the likely economic outlook and other factors that will impact the success of the strategy.</li> <li>Interpretation of Ansoff's matrix to compare the relative risk of each option therefore guiding decision making. e.g. Option 2 might be considered to be market penetration and therefore lower risk than option 1 so is therefore a better option</li> </ul>	
	<ul> <li>Evaluation</li> <li>Is Ansoff useful in this case as not clear how to categorise each option and risk more influenced by factors such as political instability and market growth.</li> <li>Weighting of the driving and restraining forces is subjective.</li> <li>ARR and Payback don't take into account the time value of money so should be used in conjunction with NPV</li> <li>Justification of most useful technique with supporting argument</li> <li>Effective integration of analysis and choice techniques will be important</li> <li>Other information that could be useful?</li> <li>Impact of management objectives and attitudes</li> <li>Long- and short-term impacts</li> </ul>
