DIGITAL MEDIA & DESIGN
Paper 1 Portfolio
May/June 2023
MARK SCHEME
Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2023 series for most Cambridge IGCSE, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of 6 printed pages.

Cambridge International AS & A Level – Mark Scheme

PUBLISHED

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always whole marks (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Excellent skill in researching and recording observations and insights from a variety of sources, relevant to intentions.

AO1: Research and record

ideas, observations and insights

relevant to intentions, reflecting

critically on work and progress

Highly accomplished ability to reflect critically on work and progress.

AO2: Explore and select appropriate media, materials and technology, reviewing and refining ideas as work develops

Exploration and selection of

technology is excellent.

Highly accomplished and

refine ideas as work develops.

sophisticated ability to review and

relevant media, materials and

AO3: Develop ideas or concepts through investigations informed by feedback, testing and constraints, demonstrating critical understanding

Excellent development of ideas or concepts, with reference to the brief provided, through focused investigations.

Analytical and critical understanding demonstrated through **highly accomplished** and **mature** referencing of feedback, testing and constraints.

21-25

Excellent realisation of intentions demonstrated through a personal digital response.

Highly accomplished and **mature** connections made between digital and design elements.

Confident skill in researching and recording observations and insights from a variety of sources,

Competent skill in researching and recording observations and insights from a variety of sources, relevant to intentions. Good ability to reflect critically on work and progress.	Competent exploration and selection of relevant media, materials and technology. Good ability to review and refine ideas as work develops.	Competent development of ideas or concepts, with reference to the brief provided, through focused investigations. Good analytical and critical understanding demonstrated through careful referencing of feedback, testing and constraints.	Competent realisation of intentions demonstrated through a personal digital response. Good connections made between digital and design elements.

Satisfactory skill in researching and recording observations and insights from a variety of sources, relevant to intentions. Adequate ability to reflect critically on work and progress.	Adequate exploration and selection of relevant media, materials and technology. Satisfactory ability to review and refine ideas as work develops.	Satisfactory development of ideas or concepts, with reference to the brief provided, through focused investigations. Adequate analytical and critical understanding demonstrated through some referencing of feedback, testing and constraints.	Satisfactory realisation of intentions demonstrated through a personal digital response. Adequate connections made between digital and design elements.
