Paper 1 Product Design

October/November 2020

1 hour 15 minutes

You must answer on the two pre-printed A3 answer sheets.

You will need: Two A3 pre-printed answer sheets (enclosed)
Standard drawing equipment
Coloured pencils

INSTRUCTIONS

- Answer **one** question.
- Use an HB pencil for any drawings and a black or dark blue pen for any writing.
- Write your name, centre number and candidate number in the space on **both** pre-printed answer sheets.
- Answer in the space provided on the answer sheets.
- Do **not** use an erasable pen, staples, paper clips, glue or correction fluid.
- Do **not** write on any bar codes.
- You may use a calculator.
- You may use standard drawing equipment, including coloured pencils.
- At the end of the examination, hand in your named A3 answer sheets. Do **not** fasten them together and do **not** punch holes in the sheets or tie with string.

INFORMATION

- The total mark for this paper is 50.
- The number of marks for each question or part question is shown in brackets [].
- All dimensions are in millimetres.

This document has 4 pages. Blank pages are indicated.

Answer **ONE** question only on the A3 pre-printed answer sheets provided.

- 1 A golf equipment shop wishes to display a set of golf clubs and other golfing equipment.

Design a stand that would display golf equipment. The stand should be mobile so it can be moved to outside the shop.

- (a) List **four** additional points about the function of such a stand that you consider to be important. [4]
- (b) Use sketches and notes to show **two** methods that could be used to make the stand mobile. [4]
- (c) Develop and sketch **three** ideas for the stand. [12]
- (d) Evaluate your three ideas. Choose **one** idea to develop further and justify your choice. [8]
- (e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]
- (f) Suggest **two** suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]
- (g) Outline a method that could be used to manufacture **one** part of your solution drawn in part (e). Include the names of the tools used. [6]

- 2 A golf ball manufacturer wishes to promote a new type of golf ball called 'fly high'.

Design a display package to contain six golf balls. The display package should promote the 'fly high' golf ball.

- (a) List **four** additional points about the function of such a display package that you consider to be important. [4]
- (b) Use sketches and notes to show **two** methods that can be used to introduce a viewing window to show the contents of a display package. [4]
- (c) Develop and sketch **three** ideas for the display package. [12]
- (d) Evaluate your three ideas. Choose **one** idea to develop further and justify your choice. [8]
- (e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]
- (f) Suggest **two** suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]
- (g) Outline a method that could be used to manufacture **one** part of your solution drawn in part (e). Include the names of the tools used. [6]

- 3 A golf range needs a device to accurately dispense 30 golf balls that are to be used for practice golf shots.

Design a device that will dispense 30 golf balls into a basket.

- (a) List **four** additional points about the function of such a device that you consider to be important. [4]
- (b) Use sketches and notes to show **two** methods which could be used to individually count a number of golf balls. [4]
- (c) Develop and sketch **three** ideas for the device. [12]
- (d) Evaluate your three ideas. Choose **one** idea to develop further and justify your choice. [8]
- (e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]
- (f) Suggest **two** suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]
- (g) Outline a method that could be used to manufacture **one** part of your solution drawn in part (e). Include the names of the tools used. [6]
