## Cambridge International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0607 (Mathematics) in the October/November 2013 examination.

	maximum mark available	minimum mark required for grade:			
		A	C	E	F
Component 1	40	N/A	25	19	16
Component 2	40	26	15	7	N/A
Component 3	96	N/A	60	35	25
Component 4	120	82	44	19	N/A
Component 5	24	N/A	15	10	7
Component 6	40	30	19	13	N/A

The threshold (minimum mark) for B is set halfway between those for Grades A and C. The threshold (minimum mark) for D is set halfway between those for Grades C and E. The threshold (minimum mark) for G is set as many marks below the F threshold as the E threshold is above it.

Grade A\* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A\* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **200** for the 'Extended' options and **160** for the 'Core' options.

The overall thresholds for the different grades were set as follows.

Option	Combination of components	A*	A	B	C	D	E	F	G
A	01, 03, 05	N/A	N/A	N/A	100	82	64	48	32
B	02, 04, 06	167	137	107	78	58	39	N/A	N/A

Grade Thresholds are published for all Cambridge International AS/A Level and Cambridge IGCSE subjects where a corresponding mark scheme is available.
