## MARK SCHEME for the October/November 2015 series

## 0607 CAMBRIDGE INTERNATIONAL MATHEMATICS

0607/42 Paper 4 (Extended), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.
Cambridge is publishing the mark schemes for the October/November 2015 series for most Cambridge IGCSE ${ }^{\circledR}$, Cambridge International A and AS Level components and some Cambridge O Level components.

oe or equivalent
SC Special Case
nfww not from wrong working
soi seen or implied

| Question | Answer | Mark | Part Marks |
| :---: | :---: | :---: | :---: |
| 1 (a) <br> (b) <br> (c) | 10 <br> Numerator over-estimates, oe and denominator under-estimates oe 8.55 or $8.546 \ldots$ | $2$ | B1 for 3 correct terms of $\frac{\sqrt[3]{1000}}{5}+\frac{20+2^{2}}{\sqrt{9}}$ or B1 for either of 2 or 8 soi <br> B1 for each |
| (ii) <br> (b) | 40.5 oe <br> 210,330 with no extras in range <br> $[x=] \frac{1}{1-a^{2}}$ oe | $\begin{equation*} 3 \tag{i} \end{equation*}$ <br> 3 <br> 3 | M1 for correct use of $a \log b$ <br> M1 for correct use of $\log a \pm \log b$ <br> B2 for 210 or 330 ignoring any extras from using 30 . <br> or M2 for appropriate sketch <br> or M1 for $\sin x=-0.5$ <br> A1 for 30 or -30 soi <br> M1 Correct squaring <br> M1 Correct multiplication <br> M1 Collection of terms <br> M1 Correct factorisation and division by their $\left(1-a^{2}\right)$ <br> If answer incorrect, maximum possible is M2 |
| 3 (a) (i) <br> (ii) <br> (b) (i) <br> (ii) | 57.2 <br> 56.8 $\begin{aligned} & y=25.9+0.54[0] x \\ & \text { or } 25.92 \text { to } 25.93,0.5397 \ldots \end{aligned}$ <br> 53 or 53.4 to 53.5 | 1 <br> 1 <br> 2 <br> 1FT | ```B1 for \(25.9+m x\), or B1 for \(c+0.54 x\), If 0 scored, SC1 for \(26+0.5 x\) or better FT their (b)(i)``` |
