1 Pat Rice offers a trade discount of $25 \%$ and an additional $10 \%$ discount for cash sales. Neither discount has been applied in the cash sales transaction recorded in the bank account on 27 September.

2 The transaction on 26 September for office equipment relates to a computer costing $\$ 1500$ that Pat Rice bought for her personal use. This was recorded incorrectly in the books. (Depreciation is not charged on fixed assets until they have been owned for one financial year).

3 Insurance paid on 28 September was for the period 1 October 2007 to 31 December 2007. This has been treated correctly in the profit and loss account.
