UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS GCE Ordinary Level

MARK SCHEME for the October/November 2006 question paper

2251 SOCIOLOGY

2251/02

Paper 2, maximum raw mark 60

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

The grade thresholds for various grades are published in the report on the examination for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2006 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	GCE O LEVEL - OCT/NOV 2006	2251	02

Section A: Family

1. The functions performed by families have changed as societies have modernised.

(a) What is meant by the term functions?

[2]

Functions may be defined as the socially prescribed contribution or roles of a social institution. A clear definition along these lines = 2 marks; an incomplete definition showing some understanding = 1 mark.

(b) Describe two functions that families perform in traditional societies.

[4]

Relevant functions include, for example, welfare, economic, education, health care, socialisation, care of young children etc. One mark for each function identified and one mark for describing accurately each function (2×2) .

(c) How have family functions changed as societies have modernised?

[6]

Fewer and more specialised functions; less division of labour in the performance of functions; more sharing of functions with other institutions.

Level 1: A few basic observations, possibly relying mainly on assertion and with some over-generalisation.

0 - 3

Level 2: A clear and accurate explanation is offered. At the top of the band, answers will reach appropriate and well- reasoned conclusions.

4 – 6

(d) To what extent is the family in decline in modern industrial societies?

[8]

Families still perform the key primary functions of reproduction, child rearing and socialisation. They also contribute to other functions (e.g. education, health care, economic), to some greater or lesser degree.

Level 1: A few general points based on commonsense rather than sociological insight can be expected at this level.

0 - 3

Level 2: A few relevant sociological observations are made, possibly relying on reference to the continuing importance of the primary functions of the family.

4 – 6

Level 3: The answer will consider several ways that the family remains important today. At the top of the band, there may also be some recognition that there are disagreements in sociology about just how important the family remains and in what ways.

7 – 8

2. Over the last century there has been a sharp rise in the divorce rate in most industrialised societies. However, divorce is not the only form of marital breakdown.

(a) What is meant by divorce?

[2]

Divorce refers to the legal termination of a marriage. The legal nature of the termination must be noted for two marks: one mark for evidence of partial understanding.

(b) Describe two other forms of marital breakdown.

[4]

Other forms of marital breakdown include separation, desertion and unhappy marriages.

One mark for each example identified and one mark for describing accurately each example (2 × 2).

Page 3		ge 3	Mark Scheme	Syllabus	Paper	
			GCE O LEVEL - OCT/NOV 2006	2251	02	
(c	;)	Why are	divorce rates rising rapidly in most Industrial societies?		[6]	
		Relevant factors include: changes in the law making divorce easier to obtain; growing independer of women; the cost of divorce is no longer prohibitive; less social stigma attached to divorced people; etc.				
	Level 1: At this level the answer will be confined to just one or two relevant factors, with little dept of understanding. Level 2: A basic review of several relevant factors would fit the bottom of the band. A more developed answer with evidence of good sociological understanding would merit full marks.				0 – 3	
(c	d)	What are	the effects on society of a high divorce rate?		[8]	
	Beware of prescriptive answers. The effects should be discussed in terms of, for example, the costs of supporting single parent families, the possible (though debatable) links between broken homes and social problems such as juvenile delinquency and teenage suicide, and the impact on attitudes to marriage and family life.			ken		
		this band. Level 2: 7 points, wo few effect Level 3: 7	A few general points based on commonsense rather than sociological observations made, possibly confined build fit the bottom of the band. A wider range of effects or more as would merit the top of the band. Answers will demonstrate a good understanding of the issues raif effects will be considered in reasonable detail.	to a narrow range detailed treatment	0-3 e of of a $4-6$	
Sect	ion	B: Educat	ion			
C	Schools play a major role in the socialisation process and this occurs mainly through the hidden curriculum. Bowles and Gintis argue that schools are important in preparing young people to be hard working and obedient members of the workforce.					
(a	1)	What is n	neant by the term hidden curriculum?		[2]	
		and teach	en curriculum may be defined as the 'unstated agenda' involved inters' attitudes that develops behaviour and beliefs that are not paid accurate definition along these lines = 2 marks, 1 mark for evidence.	rt of the formal tim		
(k	o)	Describe	two examples of how schools may reinforce gender roles.		[4]	
	Schools may reinforce gender roles through, for example, differences in subject choice, attitudes of teachers, use of education materials that portray traditional gender roles, etc. One mark for each example identified and one mark for describing accurately each example (2×2) .					
(0	;)	What is t	he role of the 'self-fulfilling prophecy' in relation to educatio	nal achievement	? [6]	
		prophecy Level 2: /	A few relevant observations that demonstrate some understandir idea may be worth two or three marks. A sound understanding of how the self-fulfilling prophecy works we have developed answer with evidence of good sociological ways.	vould fit the botton	0 – 3 n of	

the band. A more developed answer with evidence of good sociological understanding would merit

		GCE O LEVEL - OCT/NOV 2006	2251	02	
(d)	How far can the high incidence of crime among young working class men be explained in terms of the actions of the police? [8] The influences on policing decisions may well play a key part in explaining why so many crimes appear to be committed by young working class males, but other factors also need to be considered e.g. social deprivation, alienation, and concerns specific to youth and young men.				
	Level 1: Answers at this level may be largely tangential to the question. A few basic observations about youth and crime may be worth three marks. Level 2: At this level we might expect a solid descriptive account of the cause of crime. The more detailed and developed the account, the higher in the band it would go. At this level there need be no attempt to offer an assessment. Level 3: The answer will demonstrate good understanding of the issues raised by the question and there will be some attempt to assess how far the actions of the police help to explain the high incidence of crime among young working class males.			0-3 more sed be $4-6$ on and
